Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Northrop et al (D472,350). Northrop et al shows a pet food dish wherein the method of feeding a pet from the food dish comprises the steps of pouring nourishment into the bowl which has a slanted floor such that the nourishment collects at an apex of the bowl which is the lowest point of the floor relative to the ground, and refilling the bowl as needed. With respect to claim 5, to make the shape of the bowl of Northrop et al triangular would have been obvious to one skilled in the art for design and aesthetic purposes.

Allowable Subject Matter

Claims 1-4 are allowed.

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Drawings

The drawings are objected to because the detailed description of the parts of the invention do not need to be shown in the drawings, see Fig. 1. Only the reference numerals are needed to draw attention to the parts which should be described in detail in the specification. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Included for further reference on pet dishes are: Tangolics (D467,044), Tangolics (D467,687), Northrop (D472,021), Sinclair (2,584,301), Hand et al (4,905,629), Lee (5,588,395), and Willinger (5,979,361).
